Dušan Nikodijević

Senior Frontend Developer

Email: dusan.nikodijevic89@gmail.com | Phone: +381 (66) 27-06-89 | LinkedIn: www.linkedin.com/in/dusan-nikodijevic-549bb680

*Senior Frontend Developer with over 7 years of experience specializing in building scalable, high-performance web applications using **Angular** and **Vue.js**. Expert in architecting modern SPAs and implementing **Micro Frontends**, with extensive experience working within Cloud-native ecosystems (AWS, Kubernetes, OpenShift). Proven track record of improving code quality through automated testing and collaborating on CI/CD pipelines.*

Professional Experience

Solution Programmer

Engineering Software Lab Serbia · Full-time | April 2022 - Present

Angular (July 2025 - Present)

- **AI-Driven Productivity:** Actively utilizing enterprise-level AI tools and custom-defined AI skills/prompts to accelerate development cycles and optimize code refactoring.
- **Architecture & Library Development:** Developing core shared libraries (tables, toolkits, utilities) using **Angular 18** and **TypeScript 5** to ensure cross-project consistency.
- **Feature Engineering:** Implementing complex billing systems with dynamic filtering, server-side pagination, and optimized AG Grid integrations.
- **Performance & Quality:** Leveraging lazy loading, code splitting, and virtualization; enforcing high code standards via ESLint, Husky, and **SonarScanner**.
- **Cloud Environment:** Working with Dockerized builds and managing front-end configurations within **OpenShift** and **CircleCI** pipelines.

Vue.js (2022 - 2025)

- **Micro-Frontend Leadership:** Led the large-scale migration of multiple micro-frontends from Vue 2 to **Vue 3 (Composition API)** using **SingleSPA**.
- **Full-Cycle Development:** Acted as a Frontend Solo Developer for EU-funded projects (Invest4Nature, DIGIBUILD), architecting standalone applications from scratch.
- **Advanced Visualizations:** Integrated **ChartJS** and **amCharts 5** to build dynamic financial analyzers and performance assessment tools.

Software Dev Engineer

Quest Software · Full-time | July 2021 - April 2022

- **Enterprise Solutions:** Developed cloud-based database monitoring systems using **Angular**, **NgRx** for state management, and **RxJS**.
- **Monitoring Dashboards:** Engineered visual interfaces for real-time status reporting, integrated with **AWS** infrastructure.
- **Standardized UI:** Built clean, professional enterprise interfaces utilizing **Angular Material**.
- **Agile Delivery:** Collaborative development within an Agile/Scrum environment using Jira, Git, and **Jenkins**.

Frontend Developer

PDT Belgrade · Full-time | June 2019 - June 2021

- **Business Application Development:** Built robust web applications using **Angular** and UI libraries like **PrimeNG** and Angular Material.
- **Quality Assurance:** Guaranteed application stability by implementing E2E and unit testing suites with **Cypress** and **Jasmine**.
- **Infrastructure Awareness:** Supported frontend delivery within **AWS** environments and Jenkins-driven CI/CD processes.

Frontend Developer

Engineers London Limited · Part-time | Nov 2017 - May 2018

- Developed responsive web applications using **Angular** and preprocessors like **Sass** and **Less**.

Education

Bachelor with Honours in Information Technology

Univerzitet Metropolitan, Belgrade, Serbia | 2012 - 2018

Skills & Tooling

Core Frontend: Angular (v18), Vue.js (v2/v3), TypeScript (5.x), JavaScript (ES6+), RxJS

Architecture: Micro-frontends (SingleSPA, Module Federation), SPA, Responsive Web Design

Development Ecosystem: VS Code, WebStorm, Cursor, Git, Vite, Webpack 5, npm/pnpm

AI & Productivity: AI-Assisted Development (GitHub Copilot, ChatGPT, Claude Sonnet etc), Agile/Scrum

Testing: Cypress, Jasmine, Jest, SonarScanner

Languages

- English (Fluent)
- Serbian (Native)
